Mr. Sweeney has been in the cities this week laying in additional goods and will soon have complete lines. THE RECORD bespeaks fo: the young gentleman a liberal share patronage.

Another Shooting.

Another shooting took place on Batle Row Tnesday night. Lem White, better known as "Frog Eye," a 15- with privilege of a father extension rear-old negro boy, shot and dangerously wounded Charley Anderson who is also a resident of the Chute. Anderson is Frog Eye's step-father and the boy says he shot him for "whooping his mammy." The weapon used was 33 tull-dog revolver. The ball enter ed Anderson's stomach and lodged in his back. The boy went at once and surrendered to Jailer Dave Ross. The examining trial is set for this, Friday

Court Day.

An immence crowd attended court Monday and our merchants did a thriving business. Our advertisers say they were busier than for many months. Trading in the stock line was below par, however, and few sales were made which are noted in our stock column. A patent medicine fakir, the solliers marching and a churn min helped entertain the crowd during the foreno the political speeches attracted a big number in the afternoon and the negro killing at night wound up what might be truthfully termed a large but decidedly poor court day. A few stallions were exhibited, but the number was far below the usual lot ahown.

Adjutant General some time ago that Garrard county could be represented in the State Guards in case of hostilities. Friday night they were informed by Gov. Bradley to proceed with the work of raising a company. Large posters were printed by The Recomb office and Saturday night a meeting was held, at which time a good number signed. On Monday morning those who had enlisted paraded the streets, headed by the Luncaster band. By fight the required number were secured. Mr. Duncan will be elected Captain, John M. Farra. Ist Lientenant. Following is a list of those signed:

Monday, some folks expected the debate to again lead to trouble, but such was far from the case. Each speaker presented his claims in a gentlemanty and straightforward manner, and the speeches were highly enjoyed by all. We have not space to give a synopsis of each speech, but our people are well eaquainted with the many good points of the candidates. The speeches were up to the nsual standard of the gentlem in and the friends of each are highly pleased with the efforts of their man.

"Battle Row", the notorious negro settlement adjoining the town, was the seene of a killing.

"Battle Row", the notorious negro settlement adjoining the town, was the seene of a killing late Monday after noon. Porter Warren, a young white man, shot Grant Leavel, colored, with a 44 calibre Smith & Wesson revolver, the shot tearing a great hole through his body and severing the spinal cord. Loavel suffered great agony notil o'clock Tuesday morning, when he died. Reports of the trouble differ so widely that it is impossible to give anything like a correct statement of who is to blams or what led up to the killing. Warren was lodged in jail, but was allowed a gnard Tuesday. The examining trial will be held tomorrow morning. Young Warren lives at Teaterville and comes of a highly respected family. The dead man also lived in the country and was comparatively a stranger in town. We understand he was a nephew of Uacle Eph Leavell, who was one of the most honorable and upright colored men in Garrard county.

### FOR CONGRESS

McCREARY.-We are authorized to announce Hon. James B. McCreary, of Madison county, a candidate for Congress in th 8th Congressional District, subject to th action of the Democratic party.

THOMPSON-We announce J. B. Thompson candidate for re-nomination by the Democratic party for Representative in Congress from this the 8th district.

The young men who have volunteer ed to enlist and fight for their country are entitled to great praise for their gallantry. It goes to show that they are made of the right stuff and that they are every inch men. Nothing disgusts us more than to hear the various excuses many able-bodied fellows give for not enlisting. "Mama's Dar-lings," "Henpecked Husbands" and fellows who are too triffing and lazy to carry a musket are, we are pained to adm.t, very numerous. The inclination in many is to stand back and "let some other fellows go." Suppose everyone did so. How long would we have a country? As stated above, those who have enlisted are made of the right material, and have shown by their action that they are lovers of their country and are not afra'd to bare their breasts to the bullets of any intruders. All honor to Capt. Duncan and his brave band of volunteers!

A DISPATCH says Adjutant General D. R. Collier, of the State Guard, will not go the war, as was reported. It was said that he would be Brigadier General in charge of the Kentucky troops. Gen. Collier told a friend a day or two ago that as soon as the present State Guard was mustered zel Salve is the best thing to keep on into the service of the Government he will have to organize a militia to take known cure for piles, Stormes' Drug its place. It may be Gen. Collier's present intention to stay out of the fray, but a veteran is like an old circus horse-when he hears the music le wants to go 'round. And the same instinct abounds in the old soldiersmells powder, he could not be held out of the fight by a log-chain. If the fight gets hot, we will wager a quart of old bourbon that Gen'l Collier goes to the thickest of it.

It took the House just one minute and forty-one seconds Monday to pass the war declaration unanimously. The lil was reported to the Senate, which also passed it unanimously in a few minutes. The resolutions are as fol-

First-That war be and the same is hereby declared to exist, and that war has existed since the 21st day of April, A. D., 1898, including said day, between the United States of America and the kingdom of Spain.

Colonel of one of the regiments days Kentucky will need a new Sta e of mounted riflemen to be raised in the Guard, and volunteers who were left Rocky Mountains under Colonel Wood, on the first call may get in line for the whom Mr. Roosevelt urged for the next call by organizing as State miplace. We were introduced to this litia. would-be warrior in his private office at Washington not long since. He parts his hair in the middle, wears a States waters till May 21 inclusive, for chiese-rim collar, walks like he was loading, and departing, and Spanish treading upon tacks and shakes hands ships met at sea shall be permitted to in the disgusting, dudefied way. He continue their voyage, if loaded before impressed us as being a typical, gimblet-headed dude. Uncle Sam should send a wet nurse along in charge of Roosevelt.

THE Hon. John Sherman, Secretary of State, has tendered his resignation. Judge W. R. Day, First Assistant Secretary of State, was named to succeed him, while Mr. John B. Moore, an acknowledged authority on international law, and for some time Second Assistant Secretary of State, was appointed to succeed Judge Day. No brainier man ever held a portfolio than Mr. John Sherman, and it is regretted by all that old age has so drawn him down as to incapacitate him for further nsefulness to his coun-

EVERY fellow who has been lording around in time of peace with a military handle to his name, should be made to take up a gun and defend his title. Such an order would almost depopulate Kentucky, but "darn their military looks," make them take the field, and, prove their claims to the war-like prefixes they have tacked onto their names.

A FELLow over at Lexington says he wants to enlist and fight as a private. We admire the fellow's thoughtfulness From present indications there will be more generals and colonels than anything else, and a plain private will be so much of a rarity that he wiil go down in history as one of the curiosities of the war.

## How to Find Out.

Fifll a bottle or common glass with grine and let it stand twenty-fou hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO. There is comfort in the knowledge so

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar.

You may have a sample bottle and pamplet both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention The Central Record and send your address to Dr. Kilmer & Co. Binghamton, N. Y. The proprietors of this offer.

War, war, is all we can hear on every side. It may be patriotic, noble, and brave, for our boys to don the solliers garb, shoulder the masket, take eave of loved ones, and off to fight the Spaniards; but there is such a feeling of sadness comes over us when we think o how many happy homes will be darkened, ere this cruel war is over, and we are selfish enough to say that the Unite! States should have let Spain alone. Reports say that two or three of our citizens have enlisted, and others say they will enlist, and are ready to march to the music.

War or something else, has put new life into business, our merchants beinfe into business, our merchants being k-pt busy waiting on customers,
and it looked like Buckeye was having
county court Monday, but it should
be so, when our merchants keep everything that is handled in a first-class
country store, besides a line of furniture, wall paper, paints, drugs, millinery etc., and we have two fine blackmith who are prepared to work for smith who are prepared to work for the traveling public, and also carpen-ters, painters, bricklayers, shoemakers banjomakers, physicians, school teachers, churches and Sunday schools and as fine formers and stock raisers as can be found in the state and a mail carrier who faithfully discharges his duty in bringing the daily mail, which is so eagerly looked for these wartimes. And the last but not least, is, we have good, industrious women. So you see all Bic eye needs is railroads and electric lights.

The dealers have orders for 3,00), and before they get through they expect to have at least 10,000 more mules ordered by the government. For weeks the Kausas City dealers have had dealers in every county of the State and as a result they have three-fourths of the mules in the State that can pass inspection. They have bought these mules at very low prices, in some instances not paying more than \$40 a head. The mule men admit the existeuce of the combine, but they decline to discuss it further than to say that the government must pay their price. Their plans for a combination took definite shape when they received a c'rcular from Lieut. Smith, of St. Louis, Assistant Quartermaster of the United States Army, for 1,800 artillery mules. In the last six weeks Kansas City dealers have sold about 2,500 mules to the Cuban and Spanish soldiers for the Spanish army in Cuba.

But more wonderful than any arch they ever lifted or any transept window they ever illumined, or any Corinthian column they ever crowned, or any gothic cloister they ever elaborated, is the human car. Among the most skillful and assiduous physiologists of our time have been those who have given their time to the examination of the ear and the study of its arches, its walls, its floor, its eanals, its aqueduets, its galleries, its intricacies, its convolutions, its divine machinery, and yet it will take another thousand years before the world comes to any adequate appreciation of what God did when he planned and executed the infinite and overmastering architecture of the human ear. The most of it is invisible and the micro scope breaks down in the attempt at exploration. The cartilage which we call the ear is only the sterm door of the great temple clear down out of sight, next door to the immortal soul. Such scientists as Helmholtz and Conte and DeBlainville and Rauk and Buck have attempted to walk th pian Way of the human ear, but the mysterious pathway has never been fully trodden but by two feet-the foot ears on each side of the head-the external ear, the middle ear, the internal ear, but all counceted by most wonderful telegraphy. The external ear in all ages has been

> adorned by precious stones or precious metals. The Temple of Jerusalem was partly built by the contribution of earrings, and Homer in the Iliad speaks of Hera, "the three bright drops, her glittering gems suspended from the ear;" and many of the adornments of modern times were only copies of her ear jewels found in l'ompetian museum and Etrusean vase. But while the outer ear may be adorned by human art, the middle and the internal ear are adorned and garnished only by the hand of the Lord Almighty. The stroke of a key of vonder organ sets the air vibrating, and the external ear catches the undu lating sound and passes it on through the bonelets of the middle ear to the in terual ear, and the 3,000 fibers of the human brain take up the vibration and roll the sound on into the soul. physiologists called by the names of things familiar to us, like the hammer. something to strike-like the anvil, something to be smitten-like the stir-

rope and America. Struggling all the way on to 70 years of age, to conquer

the world's ear.

In that same attempt to master the human ear and gain supremacy over this gate of the immortal soul, great battles were longht by Mozart, Gluck and Weber, and by Beethoven and Meyerbeer, by Rossini and by all the oll of German and Italian and French composers, some of them in the battle eaving their blood on the keynotes and the musical scores. Great battle Dr. Talmage's text Sunday was: Psalms xeiv., 9: "He that planted the lought for the ear-fought with baton, with organ pipe, with trumpet, with cornet-a-piston, with all ivory and brazeu and silver and golden weapons cinating arts, and the study of Egyptof the orchestra; royal theater cathedral and academy of music for fortresses for the contest of the ear. tine, Moorish, Renaissance styles of England and Egypt fought for the supremiey of the Suez canal, and spartans and Persians fought for the lefile at Thermopylae, but the musi cians of all ages have fought for the naster of the auditory canal and the defile of the immortal soul and the Thermopyiae of struggling cadences.

For the conquest of the ear llaydr struggled on up from the garret where he had neither fire nor food, on and on until under the too great nervoustrain of hearing his own oratorio of the "Creation" performed, he was ear-ried out to die, but leaving as his legacy to the world 118 symphonies, 163 pieces for the barytone, 15 masses. five oratories, 42 German and Italian songs, 30 canons, 365 English and Scotch songs with accompaniment and 1,535 pages of libretti. All that to eapture the gate of the body that swings in from the tympanum to the "snail shell" lying on the beach of the

Oh, the ear, the God honored ear, grooved with divine sculpture and oised with divine gracefuluess and upholstered with curtains of divine embroidery, and corridored with di-vine carpentery, and pillared with divine architecture, and chiscled in bone of divine masonry, and conquered by professions of divine marshaling. The ear! A perpetual point of interrogation, asking llow? a perpetual point of apostrophe appealing to God. None but God could plan it. None but God could build it. None but God could work it. None but God could keep it. None but God could understand it. None but God could explain it. Oh the wonders of the human ear,

How surpassingly sacred the human car. You had better be careful how yon let the sound of blasphemy or un cleanness step into that holy of holies. The Bible says that in the ancien temple the priest was set apart by the putting of the blood of a ram on the tip of the ear, the right ear of the priest have the sacred touch of ordination ou the hanging lobe of both ears and on the arches of the ears, on the eustachian of tube the ear, on the mastoid eells of th ear, on the tympanic cavity of the ear, and on every thing from the outside rim of the outside ear into the point where the sound steps off the auditory nerve and rolls on down into the un fathomable depths of the immorta soul. The Bible speaks of "dull ears," "itching ears," and of "rebellous ears," who seem to be deaf, for it cries to them: "He that hath ears to hear le

him hear."

To show how much Christ thought of Planters NUBIAN TEA cures Dyspepthe human and Indithe human ear, He oue day met a man who was deaf, came up to him, and put a finger of the right hand into the orifice of the left car of the patient, and agitated the tympanum, and startle the bouelets, and with a voice tha rang clear through into the man's sou "Ephphatha!" and the pol phoid growths gave way, and that ma flamed auricle cooled off, and that ma who had not heard a sound for man years that night heard the wash of the waves of Galileo against the limeston

listening organ cured, corrected, Every being on rave a hearing apparatus as God knows ow to make it, and all ears will be ready for that great symphony in which all the musical instruments of the earth shall play the accompanineat, nations of earth and empires of Heaven mingling their voices, together with the deep bass of the sea, and the alto of the woods, and the tenor of

winds, and the barytone of the thun-der: "All-luish!" surging up meeting

the "Alleluiah" descending.
Oh, yes, my friends, we have been looking for God too far away instead of looking for Him elose by and in our own organ'sm. We go up into the observatory and look through the teleeope and see God in Jupiter, and God iu Saturn, and God in Mars; but we eould see more of Him through the microscope of an aurist. No king is satisfied with only one residence, and in France it has been St. Cloud and Versailles and the Tulleries, and in Great Britain it has been Windsor and Balmoral and Osborne. The ruler does not always prefer the larger. The King of earth and Heaven may have larger eastles and greater palaces, but 1 do not think there is any one more curiously wrought than the human ear. The Heaven of heavens can not contain llim, and yet Ile says He finds room to dwell in a contrite heart, and I think, in a Christian car.

We have been looking for God in the infinite-let us look for Ilim in the infinitesimal. God walking the corridor of the ear, Gol sitting in the gallery of the human ear, God speaking alon the auditory nerve of the ear, Gol dwelling in the ear to hear that which com, s from the outside, and so near brain and the soul He can hear what transpires there. The Lord of Host eneamping under the curtains of membane. Palice of the Almighty in the human ear. The rider on the white horse of the Apocalypse thrusting his foot into the loop of bone which the physiologist has been pleased to call the stirrup of the ear. Are you ready now for the question

of my text? Have you the endurance to bear its overwhelming suggestive ness? Will you take hold of some pillar and balance yourself under the semi-omnipoteut stroke? "He that planted the ear, shall he not hear?" Shall the God who gives us the appablasphemy and worship? not Himself? Drs. Wild and Gruber and Townbee invented the acounmeter and other instruments by which to measure and examine the ear, and do these instruments know more than the doctors who invented them? planted the ear, shall he not hear? Inniter of Crede was always represent ed in statuary and in painting as without ears, suggesting the idea that he did not want to be bothered with the affairs of the world. But our God has ears. "Ilis ears are open to their ery." The Bible intimates two workmen on Saturday that night do not get their wages, their complaint instantly strikes the ear of "The cry of those that reaped hath entered the ears of the Lord of of Sabbaoth." Did God hear that poor girl last night as she threw herself on the prison bunk in the city dungeon and cried in the midnight; "God have merey?" Do you really think God could hear her? Yes, just as easily as when 15 years ago she was sick with searlet and paid for years by the leading life insurance companies of America. fever and her mother heard her when at midnight she asked for a drink of water. When a soul prays God does not sit bolt upright until the prayer travels more than in one place Isaiah said IIe can hear your faintest whisper. It is not God far off up yonder; it is God away down here, close up, so close that when you pray to Him it is not more a whisper than a kiss. Ah, ves, He hears the eaptives sigh an 1 the plash of the orphan's tear, an I the dying syllables of the shipwrecked sailor driven on the Skerries, and the infant's "Now I lay me down to sleep" as distinctly as He hears the fortissimo of brazen bands in the Dassellori festival, as easy as He hears the salvo of artillery when the 13 squares of English troops open all their batteries at once at Waterloo. He that planted the ear ean hear.

Just as sometimes an entraneing strain of music will linger in the ears for days after you have heard it, and just as a sharp cry of pain I once heard while passing through Bellevue hos-pital clung to my ears for weeks, and just as a horrid blasphemy in street sometimes haunts one's ears for days, so God not only hears, groans, the worship, the blasphemy.

THE

OF LEXINGTON, KY. OUR PLAN.

Our plan is a new application of an old principle, and is based upon the actual experience of successful life insurance companies, covering a period of over 200 years. The same principles govern both, only-

WE pay while you LIVE.

THEY pay when you DIE.

WE offer the INVESTMENT features.

THEY protect in case of DEATH.

With them, death is the moving factor, causing the payment of the policy; with us, a definite and fixed mathemalical rule, in lieu of death, matures the policy.

## INSURANCE IS A LAW OF AVERAGE.

They figure on so many men out of a thousand dying-we figure on so many policies, They kill the man-we kill the policy. There is no reason why a man should die to reap the ben-

fit of his investment. We return an average of \$2.30 for every dollar paid us, and yet we assume an obligation less than one-third as great as has been assumed

## OUR MISSION.

Only about twenty (20) per cent. of the people are insurable. Only the sound and healthy, who least need it's advantages, can obtain immensity and climbs to llis ear. The life insurance. Why should there not be a means provided whereby Bible sa's lie ben's clear over. In the other eighty (80) per cent. of the population can carry an investbowed down His ear. In more than ment the same as the favored few who can get life insurance? Our misone place the Psalmist said he in- sion is to open the door to the entire population to enjoy the same or A torpid liver robs you of ambition and ruins your health. Dawitt's Litt. life by the one making the investment.

## NOTHING SUCCEEDS LIKE SUCCESS.

That our plan is popular and based upon sound business principles, is evidenced by our large and increasing membership, as shown by our remarkable 'Exhibit of Growth, See literature.

We court the clysest scrutiny and most thoroug investigation. No statement made that cannot be verified by actual results.

## Others Make Money. Why Not You?

The endorsement given this Company by the investment of bankers, law ers, merchants, ministers, doctors, railroad men, mechanics-in fact, men of business sagacity in every vocation of life-is an evidence of the soundness of

ACTUAL RESULTS, AND OPINIONS OF SOME OF OUR CER-TIFICATE HOLDERS.

REV. J. V. RILEY, of Mortonsville, Ky., says: "I have had an investment in the Southern Mutual Investment Co., of Lexington, Ky., for more than three years. I have had 23 coupons to mature by redemption, which cost me less but holds the songs, the prayers, the than \$500.00, and returned to me \$1,416,00."

LEXINGTON, Ky., September 10, 1897.

This is to certify, that my husband, W. F. White, about three years ago, invested in the Southern Mutnal Investment Co. Since that time there have been 26 conpons to mature, on which the Company has paid his estate \$1,621.96. These coupons cost his estate less than \$700,00 to mature them. I am pleased with the investment he made, and am still carrying 64 coupons in the Company
